**PROJECT
MANAGER**

PROJECT MANAGER

\$92,523 salary*

Do others seek your guidance to complete group assignments or project-based tasks? Transfer these leadership skills to the construction industry through project management. Project managers are essential to completing projects on time and on budget. Their duties can include planning, coordinating, budgeting and supervising construction projects from development to completion. Project managers usually spend most of their time on site where they monitor projects and make daily decisions about construction activities.

Education Options

A bachelor's degree, master's degree or project management certification is required.
